### 1. Design:

The design aesthetic of Flowers and Weeds is a romantic garden style. We strive to use locally farmed flowers as a socially conscious decision to be sustainable, and to celebrate the seasonal abundance of our area.

Because we use florals from our own garden and other local growers instead of purchasing primarily from the regulated wholesale market, we do not always know what blooms we will use until a week or two before the event. We work in a “designer’s choice” style. “Designer’s choice” means that the florist has the freedom to choose whatever flowers are beautiful and blooming from the garden. The bride can give the florist an idea for a color pallet, but ultimately it is the florist’s choice. This is the most cost-effective option.

From the “designer’s choice” base line, the prices rise based on the desire for premium flowers, colors or complexity of design. Again, this is a rough estimate of costs. Consultations are the best way to find out exactly what you are looking for in order to make your day blooming!

### 2. Services

Flowers & Weeds offers two options for wedding florals. Our couples have the choice of:

The **à la Carte** wedding is either pick up by wedding party or delivery by an experienced delivery driver who is not a florist. This option is ordered entirely online, and has no minimum order. After filling your online cart and checking out, a team member will confirm your date and send you an invoice. You may send a short note about your colors or style, as well as one reference photo. This option is affordable, simple and extremely seasonal.

**Full Service** is where Flowers & Weeds shines. This option has a minimum order of \$3,000. This includes florist delivery to up to three locations: including hotel, ceremony or reception location, pinning on of boutonnieres and any set-up or site-specific installation required. We

enjoy this option as floral designers, where we can design custom arrangements for the space to create a memorable event. Full-service weddings do not automatically include an end-of-the-evening breakdown, but this is something that we can discuss as desired.

### 3. Florals

The following table is a rough outline of what Flowers and Weeds typical flower estimate looks like. Of course we can get as extravagant and elegant as your heart desires, but we also strive to create beautiful show stopping arrangements on any budget.

QUANTITY	DESCRIPTION	UNIT PRICE
